

The Trauma that Surrounds us in the Practice of Correctional Medicine

This year's conference will focus on types and manifestations of trauma that we encounter as correctional practitioners.

2018 ACCP FALL EDUCATIONAL CONFERENCE

The Trauma that Surrounds us in the Practice of Correctional Medicine

October 21, 2018 Las Vegas, Nevada

The Trauma that Surrounds Us in the Practice of Correctional Medicine

2018 Fall Educational Conference Topics

This year's conference will focus on types and manifestations of trauma that we encounter as correctional practitioners.

Topics include:

- Head trauma
- Self-induced injury
- •Trauma-informed care
- Managing patients with disabilities ADA
- Emotional trauma to our correctional colleagues
- PTSD

Please see our website for the full agenda, at www.accpmed.org, visit our Facebook page for event updates, www.facebook.com/AmericanCollegeofCorrectionalPhysicians, or email Christine@accpmed.org.

Paris Hotel Las Vegas, NV

The Trauma that Surrounds Us in the Practice of Correctional Medicine

This year's conference will focus on types and manifestations of trauma that we encounter as correctional practitioners. Some of our patients have encountered various traumas as children and adults. How does this affect their behavior behind bars, and how should it inform the care we provide? How do we identify and treat patients who have suffered head trauma? PTSD? What is unique about veterans? For some patients, their trauma is self-induced and starts in custody. What is our current understanding of why and how to treat them? For patients who have suffered other physical traumas or have physical and functional limitations, what is required of us according to the American for Disabilities Act? And lastly, what emotional trauma do our custody colleagues suffer in general or from special circumstances, such as working in Isolation Units or Death Row?

Conference Agenda CME pending

07:30 a.m. - 08:00 a.m. **Networking Breakfast**

08:00 a.m. - 08:15 a.m. **Gathering and coffee**

Keith Ivens, President, MD

08:15 a.m. - 09:15 a.m.

The Americans with Disabilities Act and its Impact on Correctional Medicine Practice

Mellie Nelson, JD, Supervisory Trial Attorney at U.S. Department of Justice

Learning Objectives:

Be able to identify the type of disabilities of incarcerated patients that might fall under the medical/mental health realm. Be able to define "reasonable accommodation" and be able to give examples of accommodations for medical/mental health needs which are, and are not, reasonable in a correctional setting. Become familiar with examples of accommodations which have recently been identified by statute or the courts as disabilities requiring accommodation. Be aware of areas of ADA law, as it applies to corrections, that are currently either under litigation or likely to under change in the next 5 years.

09:15 a.m. - 10:15 a.m.

Psychological Trauma and the Correctional Healthcare Environment

Caterina Spinaris, PhD, Executive Director, Desert Waters Correctional Outreach

Learning Objectives:

Identify the prevalence of psychological trauma among Correctional Employees. Identify the types of correctional activities likely to cause this trauma (external factors) as well as personal characteristics which may increase (or decrease) the risk (internal factors). Be able to identify any actions correctional physicians can take to reduce the risk for trauma or the likelihood that a triggering event will cause trauma. Be able to identify any actions correctional physicians can take to reduce the risk for trauma or the likelihood that a triggering event will cause trauma.

10:15 a.m. - 10:30 p.m.

Break

10:30 a.m. - 12:00 p.m.

Psychological Trauma in the Correctional Environment: ACCP Hears from the Front Line Panel of Correctional Officers

Moderated for Correctional Healthcare Medical Providers

Marc Stern, MD, MPH, FACP, University of Washington School of Public Health

Learning Objectives:

Identify the prevalence of psychological trauma among Correctional Employees. Identify the types of correctional activities likely to cause this trauma (external factors) as well as personal characteristics which may increase (or decrease) the risk (internal factors). Be able to identify any actions correctional physicians can take to reduce the risk for trauma or the likelihood that a triggering event will cause trauma. Be able to identify any actions correctional physicians can take to reduce the risk for trauma or the likelihood that a triggering event will cause trauma.

Luncheon Sponsored by MHM Services, Inc., and Centurion, LLC 12:00 p.m.-1:30 p.m.

Luncheon Speaker

12:00 p.m.-1:00 p.m.

Human Trafficking, Trauma and Addiction - Interconnections with Correctional Medicine

Michael DeBernardi, PsyD, Chief Executive Officer, The Life Link

Learning Objectives:

Be able to identify the prevalence, etiology, and sequelae of domestic labor and sex trafficking in the United States. Understand the interplay between severe complex trauma, addiction, and mental illness among victims/survivors to human trafficking. Become familiar with trauma-informed approaches to victim advocacy, treatment, and community re-integration.

1:00 p.m. - 1:45 p.m.

ACCP Business Meeting

1:45 p.m. - 3:15 p.m.

Towards Developing a Trauma-Informed System of Correctional Health Care PART ONE: Antecedents to Incarceration and Your Patient: Physical, Sexual, and Psychological Trauma

Sharen Barboza, PhD, CCHP-MH, Vice President, Mental Health and MHM/Centurion, Inc.

John Wilson, PhD, CCHP-MH, VIce President, Clinical Development at MHM Services, Inc.

Joel Andrade, PhD, Director of Clinical Operations, Mental Health, MHM Services, Inc.

Learning Objectives:

Become familiar with what is known about the prevalence of traumatic brain injury ("TBI"), chronic traumatic encephalopathy ("CTE"), and post-traumatic stress disorder ("PTSD"), as well as the psychological, physical, and sexual abuse histories in correctional populations.

Be able to identify and interpret the results of state-of-the-art tests and other tools used to screen an incoming correctional population for: TBI/CTE, PTSD, as well as psychological, physical, and sexual abuse histories at intake. Be able to match the various possible results of such screening with appropriate referrals and appropriate timing of such referrals. Be able to describe how each of these conditions affect patient functionality in jail/prison, and how it might affect medical care for your patients.

3:15 p.m. - 3:30 p.m. **Break**

3:30 p.m. - 5:00 p.m.

Towards Developing a Trauma-Informed System of Correctional Health Care PART TWO: Implementing Evidence-based, Trauma-Informed

Sharen Barboza, PhD, CCHP-MH, Vice President, Mental Health and MHM/Centurion, Inc.

John Wilson, PhD, CCHP-MH, VIce President, Clinical Development at MHM Services, Inc.

Joel Andrade, PhD, Director of Clinical Operations, Mental Health, MHM Services, Inc.

Learning Objectives:

Become familiar with what is known about the prevalence of traumatic brain injury ("TBI"), chronic traumatic encephalopathy ("CTE"), and post-traumatic stress disorder ("PTSD"), as well as the psychological, physical, and sexual abuse histories in correctional populations. CME

Application for CME credit has been filed with the American Academy of Family Physicians. Determination of credit is pending.

CME Certifications

Certifications will be sent electronically. Submit the CME registration form along with the completed evaluation at the Registration Desk upon your last attended session. Credit will only be given for sessions completed. For forms not received on site, please mail the materials to: address ACCP, 5404 S. Taft Ct., Littleton, CO 80127 or fax to 303-988-2956. After January 1, 2019, there will be a \$25 processing fee to receive a copy of your certificate.

REGISTRATION

Register now for the October 21 Conference, in any of the following ways:

Register online at www.ACCPmed.org

Complete the registration form below and mail with payment information to ACCP, 5404 S. Taft Ct., Littleton, CO 80127 or bring completed form to the conference and register on site.

MEMBERSHIP

Interested in becoming a member of ACCP? Please visit our website at www. accpmed.org.

Conference Goals and Objectives

Participants will:

Be able to identify the type of disabilities of incarcerated patients that might fall under the medical/mental health realm.

Be able to define "reasonable accommodation" and be able to give examples of accommodations for medical/mental health needs which are, and are not, reasonable in a correctional setting.

Become familiar with examples of accommodations which have recently been identified by statute or the courts as disabilities requiring accommodation.

Be aware of areas of ADA law, as it applies to corrections, that are currently either under litigation or likely to under change in the next 5 years.

Identify the prevalence of psychological trauma among Correctional Employees.

Identify the types of correctional activities likely to cause this trauma (external factors) as well as personal characteristics which may increase (or decrease) the risk (internal factors).

Be able to identify any actions correctional physicians can take to reduce the risk for trauma or the likelihood that a triggering event will cause trauma.

Be able to identify any actions correctional physicians can take to reduce the risk for trauma or the likelihood that a triggering event will cause trauma.

About the ACCP

The ACCP is the only membership organization committed solely to the professional development and fellowship for Correctional Physicians, providing a venue of advocacy for us and our patients.

ACCP members are united through the goal of improving public health by examining issues specific to the incarcerated and identifying solutions for medical professionals.

The ACCP endeavors to advance research, education, and training in correctional medicine through academia and government.

Serving our members by promoting the highest professional and ethical standards in the care delivered in America's correctional facilities.
